# ABOUT US

---

*Australian Portable Toilets is a leading manufacturer, wholesaler and retailer of innovative portable sanitation products within Australasia.*

## *Vision*

---

We will raise the standards of portable sanitation worldwide.

## *Mission*

---

We are committed to manufacturing innovative and high-quality portable sanitation products whilst delivering the best customer experience.

# CORE VALUES

---

***We Are One Team*** At Australian Portable Toilets, we are one team, showing empathy and respect along the way. We always work openly and cross-functionally because it enables us to build relationships, solve problems and win together as a team.

***We Dream Big*** At Australian Portable Toilets, we always dream big. We're not afraid to ask why, we innovate at every turn and we challenge the status quo to meet the needs of our customers better.

***We Deliver*** At Australian Portable Toilets, we ensure we always deliver. We deliver on our commitments, we deliver in quality through our products, and we make sure we're delivering the best experience to our customers.

***We Have Fun*** At Australian Portable Toilets, we work hard, but we like to have fun every day. Creating a place where playful minds can thrive is important in ensuring sustainability and success within our own roles and as a company.

# OUR HISTORY

---

*Since its establishment in 2005, Australian Portable Toilets has been dedicated to providing innovative portable sanitation solutions.*

When husband and wife duo, Daryn & Judith Weller, came across the opportunity to run a successful portable toilet business, they decided to roll with it.

From humble beginnings in Queensland in 2011, they quickly expanded to become the leading manufacturer of portable sanitation products with a passionate team behind them and three warehouses across Australia.

Our extensive range of products include portable toilets, portable showers, portable bathrooms, toilet trailers, luxury toilet trailers, hand wash stations, waste tanks as well as the chemicals required to keep it all clean.

Through our unwavering commitment to quality and customer service, we have earned the trust of over 10,000 customers in various industries, including hire & rental, construction, waste management, farming, government, and individual clients.

As your reliable business partner, we are committed to providing you with exceptional products and services that exceed your expectations.

# WHY CHOOSE US

---

We are proudly Australian made

We use only the highest quality materials

We offer an extensive selection of portable sanitation products

We are committed to investing and innovating in emerging technologies

We provide fast and reliable shipping, both Australian-wide and Internationally

We pride ourselves on our quality products and exceptional customer service

## Transportation

We work closely with our logistics partners locally and internationally to ensure that our products are delivered to our customers on time and in perfect condition.

To support our commitment to short lead times, we have purchased a prime mover to transport our stock from our manufacturing facility to our assembly warehouses in Sydney and Brisbane. We will continue to invest in logistics to ensure safe and timely delivery of high-quality portable sanitation products to our customers, no matter where they need to go.

## MANUFACTURING

Our state-of-the-art manufacturing facility located in Dandenong South in Victoria is the home to our plastic rotational moulding machine. This machine is a highly specialized and efficient piece of equipment that plays a critical role in the manufacturing process of a wide range of portable toilet tanks and supporting plastic accessories.

In house manufacturing not only gives us greater control over the quality of our products, but also allows us to make adjustments and improvements quickly and efficiently, ensuring that we are always meeting the changing needs of our customers. We are committed to continuing to invest in our manufacturing capabilities to better improve component design and further introduce new products.

## ASSEMBLY

Our skilled technicians carefully assemble each portable unit, ensuring that every component is expertly put together to create a reliable and high-quality product. From the sturdy base to the plumbing system, every detail is meticulously crafted and tested to ensure that our products are durable and easy to use. Our assembly process guarantees that when our products are delivered to our customers, they are ready to be used immediately.

At Australian Portable Toilets, we take pride in our attention to detail and our commitment to delivering the highest quality products to our customers.

# PORTABLE TOILETS

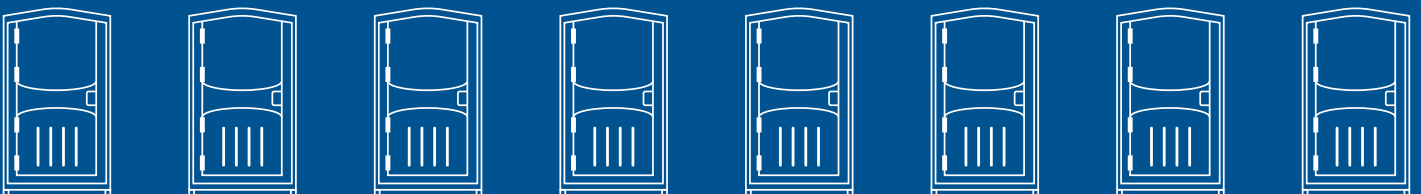

*Our portable toilets are expertly manufactured using a blend of polypropylene, linear low-density polyethylene, and high-density polyethylene, supplemented with a UV additive and colour stabilisers to protect your investment against the severe Australian weather conditions.*

By using only virgin plastics, our products are lightweight, durable, and environmentally friendly as they are impervious to water absorption and impact-resistant, ensuring their longevity.

Our cabinets are all available in standard and premium, standard cabinets come with a single sheet wall, while premium cabinets have double sheet walls for added strength and durability.

## All toilets come with:

- ✓ Foot pumps
- ✓ Certified lifting points
- ✓ Soft close toilet seat
- ✓ Non-stick coating on toilet bowl flap
- ✓ Non-slip self-draining floor
- ✓ Stainless steel toilet roll holders
- ✓ Large door opening
- ✓ Moulded vent pipe
- ✓ Mirror
- ✓ Coat hook
- ✓ Plastic Skid
- ✓ Signage placement

# STATESMAN

## Ideal for frequent usage

The Statesman Portable Toilet is a favourite among a wide range of industries due to its versatility and durability. Fully self-contained, it can be used approximately 500 times before the waste needs to be removed.

# SAPPHIRE

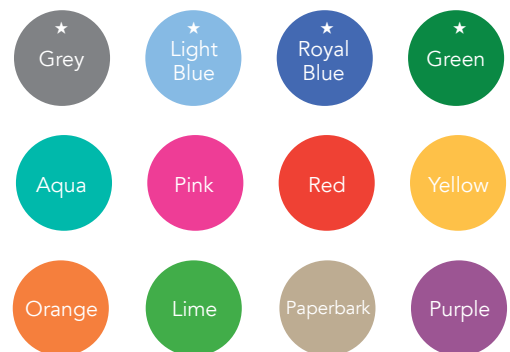

## Great for exclusive events

The Sapphire Portable Toilet is the only portable toilet on the market with dual water tanks – one for hand washing and one for the toilet flush. This allows the flush tank to have deodorisers added to it, making it ideal for those wanting something a little more special and pleasant smelling.
